1. Qualitative Information on Consolidated Results

(1) Results of Operations

Overview of consolidated business performance for the three months ended March 31, 2020 (Q1 2020)

The SIOS Group operates in the IT industry in which companies have been investing at an accelerated pace in implementing digital transformation1, including transitioning to cloud environments as well as streamlining and automating business processing. Under this business environment, the Group offers value-added products and services to assist corporate clients in overcoming their business challenges.

As a result of all these efforts, the Group achieved consolidated business results by segment for the three months ended March 31, 2020, as follows:

i. Open System Infrastructure Business Segment

The Group achieved a solid increase in sales of its core LifeKeeper2, thanks to its robust perpetual licensing business in Japan, which more than offset its declining sales in the Americas and Europe. In addition, sales of Red Hat Enterprise Linux3 and other software products sourced from Red Hat Inc.4 as well as revenues from the OSS5 support business and OSS-related products increased over the same period the previous fiscal year. As a result, net sales in this segment jumped 15.5% year on year to 2,343 million yen.

The segment income was down 11.4% year on year to 55 million yen, due primarily to additional R&D spending incurred to upgrade LifeKeeper.

ii. Application Business Segment

Revenues from software applications for MFPs6 declined. This was because an increasing number of corporate clients switched from a perpetual licensing model to a subscription model? for these applications. Sales of the management support system to financial institutions increased, as revenues from projects whose orders had been received in the second half of the previous fiscal year were recognized during the quarter under review. In addition, revenues from the provision of support for system development and implementation were strong, especially to educational institutions. As a result, net sales in this segment were up 9.0% year on year to 1,636 million yen.

Income from the provision of support for system development and implementation as well as from sales of the management support system to financial institutions showed a year-on-year increase. In particular, income from the provision of support for system development and implementation to financial institutions was up from the previous fiscal year due in part to a higher gross profit margin resulting primarily from reduced subcontract expenses and in part to the absence of unprofitable projects that had affected negatively the profitability of this segment the previous fiscal year. As a result, the segment income soared 194.9% year on year to 86 million yen.

The Group's combined net sales of these two segments jumped 12.8% year on year to 3,979 million yen, which marked record quarterly sales for the Group.

The Group's consolidated operating profit surged 54.2% year on year to 141 million yen, due to a strong performance in the Application Business Segment. The Group posted an ordinary profit of 136 million yen, up 27.5% year on year, and a profit of 73 million yen attributable to owners of parent, up 112.4%.

The Group's key management metrics EBITDA (the sum of operating profit, depreciation, and amortization of goodwill) and ROIC (ratio obtained by dividing operating profit after tax by the sum of shareholders' equity and interest-bearing debts) are as follows for the three months ended March 31, 2020:

EBITDA: 164 million yen, up 44.8% year on year

ROIC (annualized): 17.7%, compared with 10.9% for the same period the previous fiscal year

1. Digital transformation

A process in which a company uses data and digital technology to transform its products, services, and business models to more effectively respond to constantly changing business environments and deliver greater value to customers and society as well as to transform its business processes and organizational

structure and culture to gain greater competitive advantage.

2. LifeKeeper

A failover software product that automatically switches a failed primary server to a backup server.

3. Red Hat Enterprise Linux

Linux OS developed by Red Hat, Inc., a provider of open-source solutions.

4. Red Hat, Inc. Related Items

Linux OS product developed by Red Hat, Inc., a provider of open source solutions.

5. OSS

Abbreviation for open source software, Software whose source code, which is the fundamental component of the program, is made available for free and can be used, modified, and redistributed.

6. Software applications for multifunction printers

A multifunction printer (MFP) is a piece of office equipment that incorporates print, scan, copy, and fax capabilities into one unit. SIOS develops, markets, and updates Quick Scan and Speedoc, document management software applications running on an MFP.

7. Subscription model

A business model that charges customers a recurring monthly or annual fee to access a software product or service.

(2) Financial Position

i. Assets

Current assets amounted to 4,683 million yen as of March 31, 2020, up 4.5% from the end of the previous fiscal year, reflecting an increase of 395 million yen in notes and accounts receivable trade.

Non-current assets amounted to 852 million yen, up 0.0% from the previous fiscal year-end, reflecting an increase of 15 million yen in software and other intangible assets, and a decrease of 11 million yen in property, plant and equipment.

As a result, total assets amounted to 5,535 million yen, up 3.8% from the previous fiscal year-end.

ii. Liabilities

Current liabilities amounted to 3,560 million yen, up 6.1% from the previous fiscal year-end, reflecting an increase of 119 million yen in advances received and an increase of 88 million yen in accounts payable trade.

Non-current liabilities amounted to 641 million yen, down 3.9% from the previous fiscal year-end, reflecting a decrease of 30 million yen in long-term loans payable.

As a result, total liabilities amounted to 4,202 million yen, up 4.4% from the previous fiscal year-end.

iii. Net assets

Total net assets amounted to 1,333 million yen as of March 31, 2020, up 1.9% from the previous fiscal year-end, reflecting an income of 73 million yen attributable to owners of parent for the quarter under review.

(3) Forward-looking Statements Including Consolidated Business Forecasts

The consolidated business forecasts for the fiscal year ending December 31, 2020, remain unchanged from as stated in Consolidated Financial Results for the Fiscal Year Ended December 31, 2019, announced on February 5, 2020.

The Group has been progressively implementing flexible work arrangements for employees, including allowing teleworking and flexible work hours, since February 18, 2020, to reduce the risk of contracting COVID-19 inside and outside the Group and protect the safety of employees. Since April 7, 2020, when the Japanese government declared a state of emergency over the COVID-19 outbreak, all our employees have switched to teleworking. The group-wide implementation of teleworking has not had a material impact on the Group's business operations; however, a prolonged duration of the COVID-19 outbreak might adversely affect the Group's business performance going forward.

While net sales as well as operating profit and other income were on target for the quarter under review, we will announce promptly an update on consolidated business forecasts for the fiscal year ending December 31, 2020, if any material change should arise.
