4

Consolidated Balance Sheets

- As of September 30, 2025, the equity ratio was up by 4.9 points to 22.6% from the end of the previous fiscal year, as a result of an increase of 235 million yen in retained earnings.
- The interest-bearing debt decreased to 50 million yen of lease liabilities, as a result of the repayment of all outstanding long-term borrowings.

（In millions of yen）

As of December 31, 2024

Current assets 7,175 （including cash and deposits of 3,677）

Total liabilities 6,547 （including interest-bearing debts of 102）

        September 30, 2025, by Segment
2-2. SIOS Group Strategy
2-3. Products & Services
2-4. Consulting & Integration
2-5. Software Sales & Solution

2-1. Financial Results for the Nine Months Ended September 30, 2025, by Segment

- Net sales: Consulting & Integration was the only segment to achieve a year-on-year increase in net sales.
- Operating profit: Every segment achieved an increase in operating profit. The consolidated operating profit was also up. This was because the divestiture of the management support system business for financial institutions resulted in a decrease in corporate expenses and the amount of adjustments.

(In millions of yen)		Results for the 9 Months Ended September 30, 2024	Results for the 9 Months Ended September 30, 2025	%Change
Products & Services	Net Sales	4,563	4,224	-7.4%
	Operating income	253	481	+89.8%
Consulting & Integration	Net Sales	2,276	2,647	+16.3%
	Operating income	254	308	+20.9%

2-2. SIOS Group Strategy

2025 SIOS Group Growth Strategy

Achieve our Mission of
"Making the impossible **possible for the people of the world"**

The three-pillar strategy for bolstering the Group's long-term enterprise value and driving its sustainable business growth:

1. Invest in our SaaS* and subscription-based businesses

2. Maximize the benefits of generative AI* solutions in our business expansion

3. Expand our API* solutions business

Note: See the Glossary on page 36 for descriptions of terms with an asterisk.

2-3. Products & Services

Our Core Products
Offered in the Products & Services Segment

System failure prevention software

Peace of mind, made easy

LifeKeeper is designed for high-availability (HA) clusters*, monitoring system operations and seamlessly switching over to a standby system in the unfortunate occurrence of a system failure. This approach minimizes business disruptions and ensures uninterrupted operations.

Document management application

Document management on multifunction devices

This is a scanning application that can digitize documents conveniently, reducing the hassle of scanning on a multifunction printer.

Workflow (application/approval) system

Make your daily work safe and comfortable (Gluegent Flow)

Gluegent Flow uses AI to facilitate electronic workflows for submissions and approvals of requests in the office environment. This streamlined process minimizes the time and effort associated with a traditional paper-based approval process.
ID management system

Safer and easier-to-use ID management

Gluegent Gate enables the integrated management of user IDs, making system log-ins safer and easier.

Products & Services Segment:
Business Performance for Q3 FY2025 YTD

SIOS

Net sales declined 7.4% YoY due to the divestiture of the management support system business for financial institutions. The segment profit achieved a significant increase of 89.8% YoY, primarily attributable to a substantial rise in the number of corporate subscribers to our SaaS and subscription-based businesses.
（In millions of yen）

	Q3 FY2024 YTD	Q3 FY2025 YTD

2,546

2,719

Q3 FY2023 YTD   **Q3 FY2024 YTD**   **Q3 FY2025 YTD**

Percentage of recurring revenue in the Products and Services Segment: 64.4%

Note: Revenue from the management support systems business for financial institutions, which was divested of during FY2024, excluded.
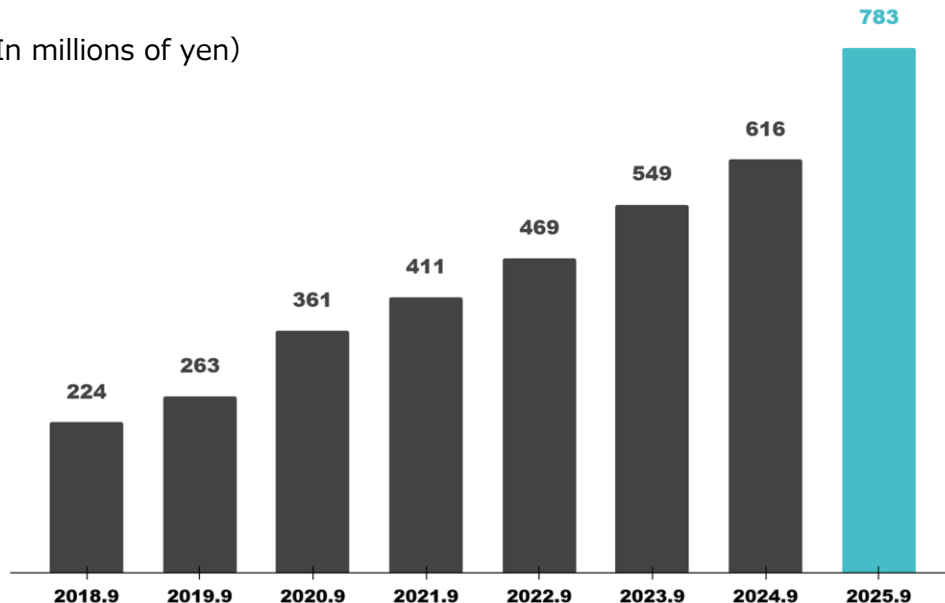

14

Revenue from Gluegent Flow and Gluegent Gate

The ARR* from the Gluegent series maintained solid growth, **especially from Gluegent Flow**.
- **Gluegent Flow: Its widely popular integration with generative AI drove the growth of its ARR.**
- **Gluegent Gate: Our efforts to deliver greater customer success resulted in its wider use and an increase in renewal of service contracts, and expanded its user base.**

【Combined ARR of Gluegent Flow and Gluegent Gate】

（In millions of yen）

Combined ARR for FY 2025 was

Up 27.2% YoY

Gluegent Flow   Gluegent Gate

前年伸長率 **+57.6%**   前年伸長率 **+13.1%**

1. ARR: Annual Recurring Revenue, obtained by multiplying MRR (monthly recurring revenue, which is a predictable revenue that a business counts on receiving every month from subscriptions) by 12

Gluegent Flow: Integration with Generative AI

● **For general users**
  ◆ Displays a summary of a task on a task-list screen.
  ◆ Makes it easy to find a particular workflow based on a task at hand.
● **For administrators**
  ◆ Eliminates the need to create codes, thereby reducing engineers' workloads.

Users' comments

• "It saves me the time to double-check the information on application forms."
• "It's really helpful when I'm figuring out which applications are more important to review during a busy month-end and when a manager has a mountain of applications to go through and approve."
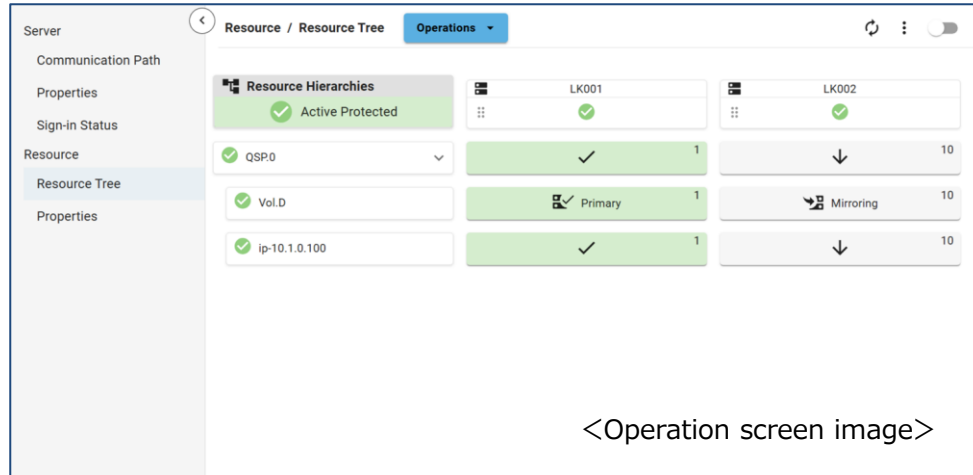

LifeKeeper v10 Announced

SIOS

Intuitive and user-friendly software that supports reliable system operations, underpinned by a zero-tolerance policy for system failures

Key features

1. **Intuitive web-based operation screen**

2. **Broad product variations to cater to the evolving and diverse needs of users**
   - The product lineup has been revamped to enable each user to select the appropriate product that aligns with their operational requirements, including operating systems*, contract types, and system configurations.
   - In the previous versions, the software's operation screen and its timing of functional updates differed from OS to OS. The new v10 release offers a unified operation screen and update timing across OSes, simplifying the management of environments where different OSes coexist.

<Operation screen image>

*Operating system: A basic software program that manages a computer's hardware and software resources LifeKeeper v10 provides the same usability and timing of functional updates for both the Linux and Windows versions.

2-4. Consulting & Integration

# Our Core Services in the Consulting & Integration Segment

System integration for the financial industry

Well-founded proposals and innovative technical solutions

For over 20 years, SIOS has been offering system integration services to publicly traded companies and leading financial institutions. Our system development support services assist corporate clients in the successful launch of new businesses or services.
Educational support

Authentication solutions for universities

SIOS boasts a robust history of delivering secure and user-friendly authentication solutions for on-campus services used by students at over 100 universities and colleges, which accommodate a diverse student population that changes every year.

API solutions

End-to-end support for API projects

SIOS offers comprehensive support encompassing the creation of business models centered around APIs, the design and implementation of systems, and the expansion of an API ecosystem.

## Implementation support for generative AI

Enterprise-level support for generative AI implementation

Our SIOS Next Tech Solution is a customized service designed to assist each corporate client in developing and implementing their AI strategy and application development.

Consulting & Integration Segment: Business Performance for Q3 FY2025 YTD

We successfully carried out additional projects to develop and implement systems for financial institutions and universities. These additional projects bolstered our revenue and profit in this segment. (Net sales: Up 16.3% YoY; segment profit: up 20.9% YoY)

(In millions of yen)

	Q3 FY2024 YTD	Q3 FY2025 YTD

Case Study: API Solutions Implementation Project

- **On November 6, 2025, Kong Inc., a corporate partner of SIOS, announced that its API management platform was chosen for the ANSER automated financial service provided by NTT Data Japan Corporation.**

- **SIOS Technology and Kong worked together to win this project and incorporate the latter's API solutions into NTT Data's service.**
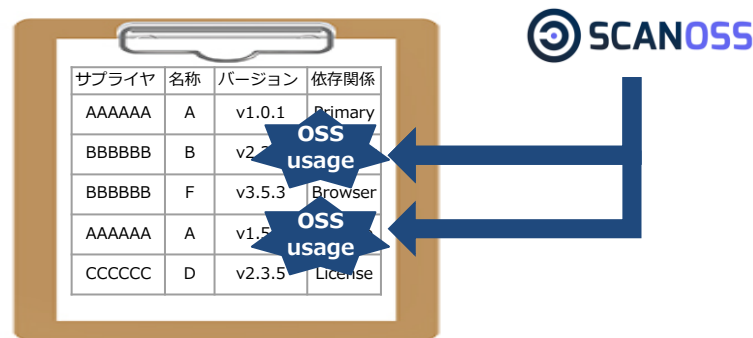

Automated Generation of SBOMs

In April 2025, SIOS Technology entered into partnership with SCAN OPEN SOURCE SOLUTIONS, S.L. (SCANOSS), a Spain-based leading developer of open-source SBOM (software bill of materials) software.

Background of partnership

Increasing need to create complete SBOMs

Increasing need to quickly create a comprehensive list of software components

Increasing threats of cyberattacks

SCANOSS: Detect the use of OSS* in software

SCANOSS supports the responsible use of OSS in software development by automatically detecting its use and generating and updating SBOMs.

⇒ Identify potential software vulnerabilities and copyright infringements**

*OSS: Open Source Software, software whose source code, which is the fundamental component of the program, is made available for free and can be used, modified, and redistributed

Implementation Support for Generative AI

Integrating an AI chatbot with an internal knowledge base

We facilitate the seamless integration of an AI chatbot tailored for business applications with a client's existing knowledge base. We also offer post-implementation user training.

RAG starter pack for Azure OpenAI Service

We provide RAG* solutions for quickly feeding internal data into Azure OpenAI and continually measuring and improving its accuracy rate. A substantial volume of knowledge, including both internal and external information, can be assimilated into Azure OpenAI.

RAG hands-on training*

The basic training course centers on Azure OpenAI Service 101, while the advanced course delves into system development in a simulated production environment, employing serverless technology.

Technical consulting on Azure OpenAI Service

We assist corporate clients in implementing and using Azure OpenAI Service, a generative AI service provided by Microsoft.

2-5. Software Sales & Solution

Our Key Partners in the Software Sales & Solution Segment

Red Hat, Inc.

Elasticsearch K.K.

Partnership spanning over two decades

SIOS provides Red Hat Enterprise Linux and other software products sourced from Red Hat to assist corporate clients in establishing high-quality, dependable information systems.
Serving as its first distributor in Japan

SIOS partners with Elasticsearch in expanding the latter's Search (high-performance search), Security (security analytics), and Observability (real-time monitoring and analyses) solutions business in Japan.

Software Sales & Solution Segment:
Business Performance for Q3 FY2025 YTD

SIOS

Net sales experienced a year-on-year decline of 24.1%, primarily attributed to the absence of significant projects for software products sourced from Red Hat, Inc., which had contributed to sales growth in the same period the previous year. Conversely, increased revenue from service products based on solutions sourced from Elasticsearch resulted in a 14.4% increase in segment profit.

Partnering with Elasticsearch in the Generative AI Solutions Business

SIOS

> **Offer Elastic-enabled RAG to assist corporate clients in implementing and using generative AI**

SIOS's three-phase assistance for successful RAG implementation

Planning phase

- **Interview clients about their objectives and to-be scenarios for RAG implementation**
- **Learn about their data sources and define their security and compliance requirements**
- **Assist them in developing a system design and devising a project schedule**

PoC* phase

- **Create a PoC environment**
- **Assist in evaluating PoC results**
- **Assist in evaluating RAG performance**
- **Assist in integration with large language models and generative AI solutions**

Implementation phase

- **Assist in designing a production environment**
- **Assist in creating a production environment**
- **Assist in operating the completed system**

3．Updated Financial Guidance for FY2025

Updated Financial Guidance for FY2025

- **Q3 FY2025 YTD results: Our consolidated net sales and profit surpassed the earlier guidance, primarily due to business expansion and effective management of SG&A expenses.**
- **Q4 FY2025: We stay with the earlier guidance to be conservative in light of uncertainties over the economic and business outlook.**
- **Annual guidance for FY2025: Updated to reflect favorable results achieved in the nine months ended September 30, 2025.**

4. Introducing the Shareholder Benefits Program

Introducing the Shareholder Benefits Program

SIOS

On November 6, 2025, the SIOS Board resolved to implement a shareholder benefits program as a token of appreciation toward our shareholders and to attract more shareholders. This program will incentivize sustained investment in our stock over an extended period.

Record date	Eligibility: minimum number of shares held	Benefits
December 31 of every year	**200**	Food product valued at 2,000 yen, chosen from a gift catalog

5. Appendix

Making the impossible
possible for the people of the world

The SIOS Group pursues innovative software solutions to resolve issues affecting people and to contribute to a better society.

ミッション実現の推進力（Driving Force）

SIOS

People

We are a dynamic team of specialists capable of driving a societal transformation.

Technology

We leverage cutting-edge technologies to drive innovation.

Culture

We refuse to go with the flow but choose to undertake an unexplored endeavor.

用語集

Page	Term	Description
10	**SaaS**	Software as a Service. A software licensing and distribution model that allows users to connect to and use cloud-based software applications over the internet.
10	**Generative AI**	Generative artificial intelligence. An AI system capable of generating new data and content from learned data.
10	**API**	Application programming interface. A set of protocols that enables different software programs and applications to share information and functions.
12	**HA cluster**	High-availability cluster. A group of servers working together as a unified system to ensure continuous operations, even when one or more components fail.
19	**System integration**	An end-to-end service provided to assist corporate clients in resolving business challenges, encompassing the planning, design, development, implementation, operation, and maintenance of an information system.
23	**RAG**	Retrieval-augmented generation. An architecture for optimizing the performance of an AI model by connecting it with an enterprise-specific knowledge base.
23	**Hands-on training**	A training and educational approach that emphasizes direct engagement and practical experience in the learning process, not just classroom learning
27	**PoC**	Proof of Concept. A process for verifying the feasibility of a proposed idea or product

About SIOS Corporation

SIOS is Innovative Open Solutions

SIOS Corporation started as a system integrator that provided solutions based on Linux and other varieties of open source software. Today, the company serves as a holding company of the SIOS Group, which includes technology firms specializing in software products and SaaS solutions.

Under the mission of making the impossible possible for the people of the world, the SIOS Group is committed to pursuing innovative solutions that resolve issues affecting people and contributing to a better society.
